

Grow Your Own Vegetables

Your Weekly Garden Schedule

(SAMPLE: 500–1,000 square feet)

Simplify your gardening by dedicating specific days and times. Maybe you schedule 20 minutes before work each morning, maybe you schedule all of it for Saturday morning. Whatever works for you.

Tuesdays: 1 hour

- 2 minutes get tools ready
- 5 minutes Garden Observation
- 10 minutes Soil Cultivation (mulching, hoeing, amending)
- 20 minutes Pest & Disease Management – notes & minor treatments
- 20 minutes Seeding, Transplanting, Trellising, Pruning
- 3 minutes check irrigation system & clean up tools (if no irrigation system, water deeply)

Thursdays: 1 hour

- 2 minutes get tools ready
- 5 minutes Garden Observation
- 20 minutes Turning Compost
- 30 minutes critical tasks from Tuesday observations
- 3 minutes check irrigation system & clean up tools (if no irrigation system, water deeply)

Saturdays: 2 hours

- 2 minutes get tools ready
- 10 minutes Prepare Harvest Station & Observation walk
- 90 minutes Harvest
- 15 minutes Prep & Store
- 3 minutes check irrigation system & clean up tools (if no irrigation system, water deeply)
